

MPS Multi Purpose Suit

The Ursuit® MPS Multi Purpose Suit is a very lightweight dry suit to be worn under an outer garment like a traditional foul-weather gear. Thanks to the breathable Gore-Tex® fabric, the MPS will keep you dry, even when worn together with outer clothing that does not breathe.

Seam construction: double seams so that the seam will not open even when worn. Inside the seams are heat seal taped and reinforced to be 100 % watertight.

Integrated socks.

New, extremely light double lock zipper.

Neck seal: 2,5 mm Glide Skin neoprene. Wrist seals: warming and waterproof Glide Skin neoprene, easy to dress and undress.
