

RDS Rapid Donning Suit black

The RDS black suit is especially suited for commercial fishing as a constant wear work suit. The breathable GORE-TEX® fabric is durable, lightweight and comfortable while always keeping you dry.

Seam construction: double seams so that the seam will not open even when worn. Inside the seams are heat seal taped and reinforced to be 100% watertight.

Reflective tapes: The suit is equipped with several reflective tapes in right places, which assure visibility in all conditions. The soft and durable reflective tapes are developed by 3M in accordance with the directive on marine equipment.

Boots: Polyurethane boots with broad fitting and strong non slip soles. Also available in GORE-TEX® socks.

Knee and back reinforcements: Cordura

Thermal hood: 3 mm neoprene hood, which protects against cold water. Attached hood, which protects against wind and rain. Supplied in a carrying bag.
